1. The following notifications (including by Electronic Means) will be furnished as indicated:

Cars to be Delivered to Private Tracks

- (a) Notification of constructive placement on all cars held on NS tracks due to any condition attributable to Consignee or Consignor.
- (b) Delivery of car upon Consignee tracks will constitute notification.
- (c) Delivery upon industrial interchange tracks of Consignee or party entitled to receive same will constitute notification.

Cars to be Delivered to Public Tracks

Notice of arrival will be given to party entitled to receive notification when car is actually placed.

Refused Carload Freight

When advised of refusal of car at destination, notice will be sent or given to Consignor or owner of the lading.

2. Notification information provided:

- (a) Car Initial and Number
- (b) If contents transferred en route, NS will furnish car initial and number of the original car and replacement car.

3. Methods and procedures for notification:

Notification may be sent or given by telephone communication or Electronic Means, (see Electronic Means, Item 200). When Consignor or Consignee utilizes an electronic or mechanical device (either in written, oral or keyed data form) notification left on such device will be considered as having been given to Consignor or Consignee, as of the date and time transmitted.

The Consignor/Consignee is responsible for providing NS with the correct contact or contacts for notification purposes.

- (a) After Constructive placement Consignor/Consignee will have until 0000 hours (see Car Days, Item 200) of the next day to furnish required instructions or information.

ITEM 400 - SITUATIONS WHEN RELIEF IS PERMISSIBLE

1. **Weather Interference:** When because of earthquakes, tornadoes, hurricanes, floods or heavy snow, the operations of the Consignor or Consignee are disrupted, the demurrage/storage calculations will be adjusted to account for the disruption, provided the disruption exceeds (2) days in duration. Any cars under Constructive Placement (PCON) on the day of a disruption will also have car days adjusted to account for the disruption, if the disruption is affecting the ability to actually place the car that is under PCON.
2. **Frozen or Congealed Lading:** When at the time of placement, lading is frozen or congealed so as to require heating, thawing, or loosening to unload, Railroad will grant one (1) credit for each day a car under actual placement that has its lading heated, thawed or loosened, with a maximum of two (2) credits. All cars under Constructive Placement (PCON) at the time the lading contained in a car that has been actually placed is heated, thawed or loosened will receive an adjustment to car days to correspond with the cars that are actually placed, to the extent that the car(s) under PCON are in that status due to insufficient space at customer's facility.
3. **Strike Interference:** When it is impossible to load or unload or receive cars from or make cars available to NS because of strike interference at the point where the loading, or unloading or receipt of cars is to be accomplished, demurrage days will be charged at the rate of \$30.00 per day during the period of strike interference, provided:
 - (a) The disruption exceeds five (5) days in duration during one calendar month; and
 - (b) No Management personnel or reduced work force is available to perform work.

(See publication NS 8002-A, Item 6030). The party responsible for loading may submit an Origin Turnover using Norfolk Southern's web based Diversion and Reconsignment application.

3. Customer having two or more facilities at the same station with NS may combine the accounts into one if requested in writing.
4. Credit Days earned in one calendar month cannot be carried over to another month.

Any Disputes received outside the foregoing time limits will be rejected.
