

It's Okay to Talk About **SUICIDE**

Thoughts of giving up and suicide can be frightening. Not taking these kinds of thoughts seriously can have devastating outcomes.

Suicide is **NOT** the answer.

2nd Suicide is the 2nd leading cause of death for people ages 10-34

The overall suicide rate has increased 31% since 2001

Suicide is the 10th leading cause of death in the U.S.

46% of people who die by suicide have a diagnosed mental health condition

90% of people who die by suicide have experienced symptoms of a mental health condition

If you start thinking about suicide, seek help. Call or text a crisis line or a trusted friend.

Make an appointment with a health care professional to talk about what you're thinking or how you're feeling.

Suicidal thoughts are a symptom, just like any other — they can be treated, and they can improve over time.

HIGH RISK POPULATIONS

75% of all people who die by suicide are male

4x Lesbian, gay and bisexual youth are four times more likely to attempt suicide than straight youth

Transgender people are 12 times more likely to attempt suicide than the general population

12x

If you are concerned about suicide and don't know what to do, call the National Suicide Prevention Lifeline at 1-800-273-8255.
